

Legacy Parks

Bicentennial Park

- Concerned with additional parking right across from my house. Headlights shinning in front window and people looking in the house while parked in their car (privacy)
- Possibly move additional parking where BB court is and Pickleball court are projected (closer to softball fields Pickleball, shelter, and BB court on North side of additional parking lot.
- Love walking path
- Additional lighting and at park (a lot of suspicious activity, cars parking after 10 pm)
- Good for pickleball courts, need fencing and lights
- Need Fencing and windbreak around the courts – great courts! and benches
- Dividers between courts
- And lighting
- 3 courts/bench/lights/dividers
- Courts like Tower (actual court not printed pavement)
- Also need high benched and table
- Volleyball net, grill, fire pit, and pavilion
- Garden- walking path
- Yay for more sidewalks
- Walkway through easement from Brentwood Dr. Connecting to walking path (love the additions)
- Don't forget the benches near the playgrounds, in the shade, for parents
- Restrooms far from the playground
- Short fencing around and between the pickleball courts
- Great addition pickleball, needs lights and fencing
- Multiple pickleball courts
- Roller skating area
- 6 pickleball courts instead of 3
- Rain gardens to complement wetlands
- Add tennis courts back, only ones at Kirchhoff?
- Upgrade BB courts
- Lights and restrooms always
- Wi-Fi hotspot

Will Park

- Wi-Fi hotspot
- Solar lighting

Kirchhoff Park

- MORE PICKLEBALL COURTS!!! WITH WINDSCREEN AND BENCHES
- Roller skating area
- Proper lighting for parking/courts/shelter
- More pickleball courts with bench and windscreen
- More pickleball courts/dividers/lights/fencing
- Need more pickleball courts
- Lets's go Kir
- Windbreak, lights, seats
- ADD SEVERAL COURTS – IF COURTS AT SEVERAL LOCATIONS PEOPLE WILL HAVE A NIGHTMARE CHOOSING & IT WILL BE A SCHEDULING PROBLEM!!!
- More pickleball courts with lights
- More tennis courts
- Public Pool
- Bathrooms year-round
- Disappointed to see the softball fields go away
- Wi-Fi Hotspots
- Great open play and BB court
- At least line tennis courts for pickleball if not separate
- Lights on side NOT ABOVE- USA pickleball Assoc. approved, barriers in between
- Keep bathrooms open year round
- Needs Splash pad- why add to Vaplayso, this design, as proposed, will keep Kirchhoff under-utilized- ironic for Valparaiso's first park!
- Lights – Dusk till Dawn all parks.
- Needs Plaque to distinguish as a Legacy, Valparaiso's First Park
- Will remain the most central, most under-utilized, highest potential, highest unused park in Valpo.
- Solar lighting along paths
- FOUR TENNIS COURTS
- Disc golf practice baskets

Fairgrounds Park

- Dugouts- finally!!!
- Turf infields are a must going forward to prevent someone from getting seriously hurt
- Back up pitchers' mounds!
- Crosswalk DANGEROUS CROSSINGS from Boys and Girls Club – very important especially as B& G club adds before and after school and child development capacity and programs
- Night Security lighting – for all around trails
- Enforcement of dog litter bags everywhere
- Turf fields for better drainage
- Wi-Fi hotspots
- More Parking

Valplayso

- Would be great to keep bathrooms open for more of the year, as my family uses the playgrounds even in the cold March- November
- Need Shade structures/areas
- Select a different surface than the Central Park Splashpad (too slippery) ex. Silver Beach in St. Joe, MI
- Roundabout will get backed up? Make parking instead so parents with small children do not have to carry kids and equipment so far
- Bathrooms open all year, hot water in the sinks
- Enough parking for play area and splash pad?
- Solar lighting along all pathways
- Expand wetlands
- Wi-Fi hotspot
- Benches at splashpad for parents

Westside Park

- Wi-Fi Hotspot
- Adult Soccer
- Would be better on grass (not turf)
- Misspelling of Morthland Drive
- Fields get used and abused (turf would be helpful)

Ogden Gardens-Forest Park

- Sidewalk/trail from Oak Hill (woods)/Manchester to Ogden
- Missing Trash Areas, Dumping of Pockets along views /areas of RR tracks
- Adding parking will only lead to fewer trees and thus destroy the woody character of Forest Park
- Why not diagonal parking on the south side of Harrison?
- Double wide road will allow for 2-way traffic
- 2nd restroom near gazebo, new entrance, and parking
- Harrison Pathway for close neighborhoods
- New parking is necessary; currently dangerous on Harrison and should not be on that road
- Trash areas/bathroom spots
- Removing dangerous entrance is an excellent decision.
- Love the fish
- Lighted trail (for security) People will walk them regardless
- Wi-Fi hotspots
- Westward woods plan> invasives, trails, nature studies....
- Keep the Horticultural Emphasis
- Greywater for all restrooms
- Disc golf practice baskets

Tower Park

- More climbing opportunities at all playgrounds
- Better signs directing cars to Billings lot
- Short fence/backstop on pickleball court
- Lighted trail around outer ring? (People will walk there anyway)
- Better lights for baseball field
- Trail around park with lights
- ABANDON PICKLEBALL COURT MOVE TO KIRCHHOFF
 - Because pickle ball is a fast social game and is best with more than one court
- Bigger playground please
- Solar lighting on all shelters

Rogers Lakewood

- Larger focus on the Disc golf course. One of the best in the state and one of the major attractions for out of city visitors
- Kayak launch (raised) there is a special raised dock specifically for kayaks-much easier to get in and out
- As disc golf continues to grow, the park needs to accommodate the growing skills of players. Rather than let the course remain stagnant in its development. Build the course for the future
- Wi-Fi Hot Spots
- Lighted trails perimeter (people will walk there anyway)
- Trails + Features North- past Derby Downs by/through campgrounds to eastern edge
- Disc golf improvements
- LEED Certified for Lodge

Jessee - Pifer

- I would like to see disc golf practice baskets installed in town parks much like basketball hoops, Playground equipment, etc. **I agree
- Add tow rope to sled slope
- Parking on Madison is limited, more parking. Madison just ends no cul-de-sac or turn around
- Disc golf baskets
- Accessibility issues, hard to access this park
- Expand to the north with lots that are a part of the "Stoltz House"
- Solar Lighting on Path/Shelter

**Other parks not listed did not have direct feedback left for those locations.*
